PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 1+ year of professional experience architecting scalable, high-performance web applications using React.js and Next.js. Proven track record delivering production-grade platforms — including a real estate SaaS, an AI-powered resume optimization tool, and a real-time crypto analytics app. Specializes in REST API integration, state management (Redux, Zustand, React Query), SSR/SSG optimization, and SEO strategies. Experienced in containerization with Docker and implementing CI/CD pipelines using GitHub Actions to streamline deployment and development workflows. Committed to clean, accessible, and maintainable code that drives measurable business outcomes..

CORE TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript
Frameworks & Libraries: React.js, Next.js, Redux, Zustand, TanStack React Query, Context API, React Hooks, Framer Motion
Styling: Tailwind CSS, shadcn/ui, Bootstrap, CSS3, HTML5, Responsive Design
Next.js Concepts: SSR, SSG, API Routes, Middleware, Dynamic Routing, Image Optimization
Auth & Security: NextAuth.js, JWT, Secure API Handling
Backend & APIs: Node.js, Express.js, REST APIs, WebSocket
Databases: MongoDB, MySQL, PostgreSQL
AI Integration: Gemini AI, Prompt Engineering
Testing & Quality: Jest, React Testing Library, ESLint, Prettier
DevOps & Deployment: Docker, GitHub Actions, CI/CD Pipelines, Vercel, Git, GitHub
Tools: Postman, Figma, npm
Core Concepts: Performance Optimization, SEO, Web Accessibility (a11y), Clean Architecture

PROFESSIONAL EXPERIENCE

Frontend Web Developer | [Varnda — Real Estate Platform](#) | Jul 2024 – Sep 2024 · Freelance

- Engineered a scalable real estate web application with React.js, delivering end-to-end property listing, advanced filtering, and content management features that reduced manual admin effort.
- Built a responsive, mobile-first UI using Bootstrap and CSS3, achieving seamless cross-device compatibility across all target screen sizes.
- Integrated RESTful APIs for real-time backend communication, enabling dynamic data rendering and reducing page load time through lazy loading and optimized component rendering.
- Developed a full-featured admin dashboard for managing listings and platform content, streamlining operational workflows.
- Applied SEO best practices (semantic HTML, meta tags, structured data) to improve organic discoverability of property listings.

FEATURED PROJECTS

AI Resume Analyzer — Full-Stack AI Platform [↗ Live](#) | May 2026

AI-powered platform helping job seekers optimize resumes and pass ATS screening systems.

- Developed an AI-driven ATS scoring engine using Gemini AI that analyzes resumes against job descriptions, surfaces keyword gaps, and generates tailored improvement suggestions.

- Built a customized resume generation feature that re-crafts candidates' resumes to match specific job descriptions, increasing relevance and recruiter shortlist rates.
- Implemented an AI interview question generator that produces role-specific questions based on CV content and target job description, accelerating candidate preparation.
- Optimized API performance and data-fetching efficiency using TanStack React Query, reducing redundant network calls and improving UI responsiveness.

Tech Stack: Next.js · Gemini AI · Tailwind CSS · shadcn/ui · TanStack React Query

Crypto Radar — Real-Time Crypto Analytics App [↗ Live](#) | Feb 2026

Live cryptocurrency tracking dashboard with search, filtering, pagination, and interactive charts.

- Integrated live market data APIs to deliver real-time price tracking, search, and paginated coin listings with sub-second updates.
- Built interactive data visualizations with Recharts, enabling users to analyze price trends over custom time ranges.
- Optimized rendering performance through memoization and efficient state updates, maintaining smooth UX under live data streams.

Tech Stack: React.js · Recharts · REST API · Performance Optimization

English Learning Platform — Animated Landing Page [↗ Live](#) | Oct 2024

High-conversion marketing page with rich animations and dark mode support.

- Delivered a fully responsive React.js landing page with Framer Motion animations that measurably improved user engagement metrics.
- Implemented accessible dark mode toggle using CSS variables and React state, improving usability across lighting environments.

Tech Stack: React.js · Framer Motion · CSS3 · Dark Mode · Responsive Design

Gym Genius — Gym Management System [↗ Live](#) | Feb 2024 – Jun 2024

Full-featured management system with member, subscription, and training workflows.

- Built separate user and admin dashboards with Next.js, enabling granular role-based access control and content management.
- Implemented subscription and training plan management flows, with integrated chatbot functionality to handle member inquiries.

Tech Stack: Next.js · Role-Based Access · Chatbot Integration · Dashboard

EDUCATION

Bachelor of Computer Science — Minya University, Egypt | Oct 2020 – Jul 2024 | GPA: 3.19 / 4.0 (Very Good)

CERTIFICATIONS & TRAINING

React Web Developer — Digital Egypt Pioneers Initiative (DEPI) | May 2024 – Nov 2024

MERN Stack Development — ITI Minya | Jul 2023 – Sep 2023

Web Development Fundamentals — ITI Minya | Jul 2021 – Aug 2021

LANGUAGES

Arabic: Native | **English:** Professional Proficiency
